

TECHNOLOGY LEADER & SENIOR SOFTWARE ENGINEER

Full-stack software engineer with fifteen years building SAAS, AI, and cloud applications across nonprofit, e-commerce, and education. Expertise in Python, Django, JavaScript, and Google Cloud (GCP/GKE), with hands-on experience designing agentic AI workflows using Claude Code and Copilot. Owned and maintained system serving 200,000 days of foster care annually, including EHR integrations and HIPAA compliance. A clear communicator and mentor who solves hard problems pragmatically. Outside of work, a meditator and permaculture practitioner drawn to engineering roles where software helps people and the planet.

Core: Python, Django, JavaScript, PostgreSQL, Docker, Kubernetes, Google Cloud (GKE, App Engine, Tasks)

AI: Claude Code and Microsoft Copilot agent harnesses and workflows, retrieval-augmented generation (RAG)

Working knowledge: FastAPI, Flask, Jupyter, pandas, React, TypeScript, Vue, Node.js, Go, GraphQL

PROFESSIONAL EXPERIENCE**Lead Software Engineer, Koinonia Family Services****March 2021 – Present***Remote*

- Technical owner of application serving 1000s of placements and 200,000 days of care annually.
- Maintained complex Google Kubernetes Engine (GKE) infrastructure after losing former developer.
- Created new fully managed serverless Google App Engine (GAE) project with Python and Django.
- Increased test coverage 400% adding Continuous Integration and Deployment (CI/CD) through GitLab.
- Introduced asynchronous Google Tasks for background processing improving user experience.
- Incorporated PostgreSQL full-text search and parsing of multiple file types including PDF.
- Managed Electronic Health Record (EHR) integrations (InSync, Binti, Exym) and HIPAA compliance.

Senior Software Engineer, Lull**March 2020 – September 2020***Goleta, CA*

Managed continuous updates and upgrades on Lull's e-commerce platform, including integration of payment providers—PayPal, Verifi, Braintree, Apple Pay—and development of novel components using Vue.js. Managed continuous integration with TeamCity. Developed A/B Testing with Google Optimize & Optimizely.

Senior Software Engineer, AppFolio**April 2019 – January 2020***Goleta, CA*

Created scalable, robust, and simple web-based software solutions for a leading property management SAAS company.

- Created visualizations for AppFolio's AI virtual leasing assistant.
- Integrated 3rd-party leasing provider, Blue Moon.
- Refactored sign-in application from 7 to 3 screens.
- Developed date/time component to automate scheduling.

Lead Instructor, Galvanize**July 2017 – March 2019***Boulder, CO*

Lead instructor for an immersive web development bootcamp. Prepared eight cohorts of twenty students to become full stack developers.

- "Campus Captain" for Galvanize Boulder.
- Expanded and taught curricula on JavaScript, React, Redux, and Cloud Native Essentials.

EARLIER EXPERIENCE

Software Engineer, Pearson (2016–2017) machine learning grading/reporting; cut stats processing time in half.
CTO, Blue Hook (2014–2016) satellite-imagery (Apollo Mapping), accessibility (Hawaiian Airlines), data (KPMG).
Software Engineer, Simple Energy (2013–2014) web experiences engaging utility customers in energy efficiency.
Software Engineer, Genscape (2012–2013) data collection/analysis for natural-gas pipeline and energy markets.

EDUCATION

Master of Science in Computer Science, New York University	2012
---	-------------

- Emphasis in Databases and Natural Language Processing.
- Financial Software Development Intern at Bloomberg.
- Capstone project – Smart thermostat development at EnergyHub.

Bachelor of Science in Business, Cal Poly San Luis Obispo	2006
--	-------------

- Concentration in Finance & Accounting.
- Fixed Income Research Intern at Allegiance Capital.
- Member of the Student Managed Portfolio Project.

LICENSES & CERTIFICATIONS

Food Forests Course, OAEC (Occidental Arts & Ecology Center)	2026
Machine Learning Specialization, DeepLearning.AI, Stanford Online	2024
200-Hour Yoga Teacher Training, Yoga Soup	2023
Introduction to Data Science in Python, University of Michigan	2020

VOLUNTEER EXPERIENCE

Contributor to Django	2024 – 2026
Organizer, Central Coast Python	2021 – 2025
Shine Ambassador, Yoga Soup	2020 – 2024
Organizer, BoulderJS	2015 – 2019
Champion, CoderDojo Boulder	2014 – 2016
